A Winning Combination

With the imageFORMULA DR-7080C scanner, Canon leverages the industry-leading technologies of both its award-winning imageRUNNER® and imageFORMULA product lines.

The Canon imageFORMULA DR-7080C scanner combines the flexibility of a flatbed/sheetfed paper handling system with the speed and reliability of a color production scanner. It's capable of scanning books or bound documents as well as hard-to-handle documents too fragile to pass through the feeder, yet it's also well suited for scanning high volumes of documents for important or business-critical applications. With outstanding performance, the DR-7080C scanner leverages the industry-leading technologies of both the award-winning Canon imageRUNNER® and imageFORMULA DR-Series scanner product lines.

Good News for Production Environments

Meeting production-level scanning needs, the DR-7080C scanner maintains speeds up to 70 pages per minute,* whether scanning in color, grayscale, or black-and-white modes. The DR-7080C scanner also handles a wide variety of documents, such as forms, insurance claims, contracts, and transportation/delivery records with ease and precision. With a suggested daily volume of up to 6,000 scans per day, the Canon DR-7080C scanner offers durability and reliability for minimum downtime.

The Canon DR-7080C scanner won't compromise image quality for performance. With an optical resolution of 600 dpi, 24-bit color depth, and 256 levels of grayscale, the DR-7080C scanner delivers finely detailed images and picture-perfect scans consistently, across a full range of document applications.

Designed for Convenience and Efficiency

Canon has built the DR-7080C scanner using its familiar imageRUNNER copier design and Automatic Document Feeding system for exceptional ease-of-use and proven reliability. No manual presorting is required, as the scanner automatically detects the length and width of each document in a mixed batch, regardless of size, up to 11" x 17". Even documents up to 39" in length can be processed in the Long Document Mode.

The DR-7080C scanner offers an easy-to-use control panel that helps ensure effortless operation, even for walk-up users. Scan-to-Job functions for the panel can be programmed to support direct, one-touch scanning to e-mail, file folders, printers, and up to 99 customized predefined jobs.

Achieve Optimum Throughput with Seamless Integration

Optimum throughput is possible only when everything works together seamlessly. That's why the DR-7080C scanner includes Hi-Speed USB 2.0 and SCSI-III interfaces for easy installation and high-speed connectivity with bundled ISIS® and TWAIN drivers. Fast multiplatform compatibility allows access to a wide variety of scanning applications and software solutions to better handle heavy throughput demands.

Bundled with Canon CapturePerfect® 3.0 software, the DR-7080C scanner provides a choice of output formats and capabilities, including password-protected and searchable PDF, plus full MultiStream™ support. MultiStream technology enables the DR-7080C scanner to capture images for multiple applications at high speed. It can simultaneously output two images from a single scan in a variety of combinations, such as full-color for archiving and RGB color dropout for forms processing. Other productivity-boosting features include Automatic Paper Size Detection, Skew Correction, Text Orientation Recognition, and Batch Separation options.

* Examples based on typical settings, rated in pages per minute with landscape orientation letter-sized documents, landscape feeding direction, at 200 dpi. Actual processing speeds may vary based on PC performance and application software.

Specifications

Type:	Universal Production Scanner	
Document Feeding:	Automatic Sheetfed, Manual Flatbed	
Document Size		
Flatbed:	12.0" - 17.0" Maximum	
Width (Feeder):	5.5" - 12.0"	
Length (Feeder):	5.0" - 17.0"	
Long Document:	Up to 24.8" Length	
Document Weight:	11 - 32 lb. Bond	
Feeder Capacity:	100 Sheets	
Grayscale:	8-Bit, 256 Levels	
Color:	24-Bit	
Scanning Element:	3-Line CCD	
Light Source:	Xenon Lamp	
Scanning Modes:	Simplex, Duplex, Color, Grayscale, Black and White, Error Diffusion	
Color Dropout:	RGB	
Optical Resolution:	600 dpi	
Output Resolution:	100/150/200/240/300/400/600 dpi	
Scanning Speeds*	Simplex	Duplex
Black and White:	Up to 70 ppm	Up to 36 ipm
Grayscale:	Up to 70 ppm	Up to 36 ipm
Color:	Up to 70 ppm	Up to 36 ipm
Interface:	Hi-Speed USB 2.0, SCSI-III	
Scanner Drivers:	ISIS/TWAIN for Windows® 2000/XP/Vista®	
Dimensions:	11.8" x 22.6" x 23.7"	
Weight:	70.4 lb.	
Power Consumption:	148W or Less	
Suggested Daily Volume:	6,000 Scans	

BUNDLED SOFTWARE

- ISIS/TWAIN Driver
- Canon CapturePerfect 3.0

OPTIONS

- Exchange Roller Kit
- Nine-Month Extended Service Package
- One-Year Extended Service Package

OTHER FEATURES

- Advanced Text Enhancement
- Deskew
- Color Dropout/Enhance Color
- Text Orientation Recognition
- Skip Blank Page
- MultiStream
- Scan-to-Job Buttons

ITEM NUMBER

DR-7080C (Black Background): 9150A002
DR-7080C (White Background): 9150A009

* Examples based on typical settings, rated in pages/images per minute with landscape orientation letter-sized documents at 200 dpi unless specified. Actual processing speeds may vary based on PC performance and application software.
